

“Building a  
brighter  
future for  
school  
children  
in Ghana”

Join our Steps for Change challenge and help to give thousands of children a quality education.

Sabre is working to improve the education received by 4 & 5 year olds, the most important stage of learning for children’s development.

Education is made fun through activity, play and dance, and every day we are taking steps to give these children a brighter future.

## How can you get involved?

Start your own steps challenge!

- Walk as far as your legs will carry you...
- Run further than you have ever run before...
- Have a dance-off or dance-athon...

and get sponsored for every step you take.

Your distance will contribute towards our Steps for Change total target of 8 million steps to cover 4,912 miles from the UK to Ghana!

Share your challenge, training & steps using **#StepsforChange**, and take and share a stepsie (as opposed to a selfie!)
